PROFESSIONAL SUMMARY

B.Tech Information Technology graduate and React / Next.js developer who builds responsive, component-based web applications with TypeScript, JavaScript and Tailwind CSS. Built and deployed three live projects, including a full-stack Sales Order ERP with role-based authentication, REST APIs, Prisma ORM with PostgreSQL and PDF generation. Web development intern who resolved 15+ UI and performance issues. Experienced in responsive UI development, reusable components, API integration, authentication, debugging, and frontend performance optimization.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Web Design, Component-Based UI, Reusable Components

Backend & APIs: REST API Integration, Authentication & Session Management, Node.js, Express.js, Prisma ORM **Databases:** PostgreSQL, MySQL

Tools & Practices: Git, GitHub, Vercel Deployment, VS Code, Debugging, UI Performance Optimization, File Upload Handling

SELECTED PROJECTS

Sales Order & ERP Management System

Live: sales-order-erp-remex.vercel.app

Next.js | React | TypeScript | Tailwind CSS | Authentication | Prisma | PostgreSQL | REST APIs | Vercel

- Built and deployed a **full-stack Sales Order ERP** covering the complete workflow from sales order creation through Store → Production → Billing → Dispatch.
- Developed responsive, **reusable React components** with Next.js, TypeScript and Tailwind CSS for order, product, production, billing and dispatch modules.
- Implemented **role-based authentication** and session management to control access across workflow stages.
- Developed **REST API** features and integrated Prisma ORM with PostgreSQL for structured data and workflow operations.
- Implemented PDF generation for sales orders and status-based workflow management; deployed on Vercel. GitHub: github.com/Rashidrxq/SalesOrder-ERP-REMEX

GATE 2027 — Notes & Study Platform

Live: gate2027-azure.vercel.app

React / Next.js | TypeScript | Tailwind CSS | Authentication | File Uploads | Responsive UI

- Built and deployed a responsive GATE 2027 study platform for browsing and sharing subject-wise study materials.
- Developed reusable UI components for subject navigation, note discovery, search, and categorized resources.
- Implemented user authentication and content contribution workflows for platform users.
- Built file-upload functionality for PDF, DOC, DOCX, PPT, and PPTX study materials with subject-based categorization.

WALQ E-SHOP — E-Commerce Website

Live: e-commerce-website-five-gules.vercel.app

HTML | CSS | JavaScript | PHP | MySQL | Responsive UI

- Developed a responsive e-commerce website for browsing and purchasing food products through structured product and shopping workflows.
- Built frontend interfaces for product discovery, search, authentication, cart, orders, reviews, and promotional sections.
- Implemented responsive UI components for product listings, new arrivals, offers, customer reviews, blogs, and navigation.
- Integrated frontend functionality with PHP backend services and MySQL database operations.

EXPERIENCE

Web Development Intern — Dene Branding

Aug 2025 – Oct 2025 | Kerala, India

- Diagnosed and resolved **15+ UI and performance issues** across web applications, improving usability, responsiveness and overall frontend quality.
- Built and refined **responsive user interfaces** using reusable UI patterns, keeping layouts consistent across screen sizes.
- Debugged frontend defects and delivered UI improvements while collaborating with the team in a professional web development environment.

EDUCATION

B.Tech — Information Technology, University of Calicut

2021 – 2025

CERTIFICATIONS & ADDITIONAL INFORMATION

Certification: Electronic Arts — Software Engineering Job Simulation, Forage (Oct 2025)

Languages: English, Malayalam
